

Liste der homöopathischen Arzneimittel, für die uns kein Hersteller bekannt ist.

Auf dieser Liste finden Sie Arzneien, die in der homöopathischen Literatur auftauchen oder für die es Arzneimittelprüfungen gibt, die aber zur Zeit von keiner uns bekannten Apotheke hergestellt werden. Wir sind dankbar für jedes Mittel, das Sie irgendwo finden und uns mit Hersteller melden, damit wir unsere Datenbank vervollständigen können.

Für jedes gefundene Mittel bekommen Sie eine Woche Zugang zur Datenbank umsonst.

Bitte melden Sie keine Mittel des Herstellers Homeocur aus Retz, weil wir gerade auf deren Liste warten und sie dann einarbeiten werden.

List of homeopathic remedies without a known manufacturer.

On this list you find all those remedies that occur somewhere in homeopathic literature or for which there are provings, but which are currently not supplied by any pharmacy known to us.

We are thankful for each remedy that you find and report to us together with its manufacturer, so that we can complete our database.

And for each remedy found we offer a free week subscription.
