

Totally revised new edition !!

The Natural System of Remedies **– Das natürliche System der Heilmittel** **(bilingual edition)**

Eight years after the first publication of this book (as „Natural Relationships of Remedies“) the work with these family systems has become popular in modern homeopathy and is one of its foremost areas of research. So the exact constellation of the scientific orders of homeopathic remedies is to always be renewed, but is as necessary as ever. More and more therapists and teachers use the families of plants and animals and the periodic system as an important tool to find their remedies.

The new edition has kept the advantages of the 1st edition:

completeness, clarity, three languages (Latin, English, German),
and also includes:

- many new remedies,
- improved systematics after new researches
- mentioning of provings
- schemes of plant-, animal- and periodic system

Therefore the book has become larger and more expensive.
